"Le" denotes Butterfly Express blend.

Kit Contains: Four 5/8-dram pure essential oils
.078 fl. oz. (2.3ml) ea.

100% Pure “Therapeutic Grade” Essential Oils

Aromatherapy Uses: Put on cotton ball or cloth and clip to fan or vent. Open a bottle and take three big breaths. Diffuse during cold season in a diffuser or humidifier to assist in eliminating bacteria in the air and open bronchioles. Put in inhaler. Place a few drops in pan of hot water, bath water or on floor while showering.

Topical Uses: Add 1–3 drops of essential oil to about a dime-size amount of carrier oil in your hand and apply to area of concern: chest, back, forehead, temples, or base of nose, wrists, where you can raise your hand and smell it. Put a drop behind your ears for nausea. Dilute and apply to bottoms of feet. Put a drop of Deliverance on toothbrush or soak toothbrush in a few drops diluted with water.

CAUTIONS: Keep out of reach of children. Quality, 100% pure, “Therapeutic Grade” essential oils are highly concentrated plant extracts and should be diluted with use. They absorb easily through the skin. Ingestion could potentially cause irritation to the digestive system, and is not recommended. Begin slowly, with small amounts; too much oil may trigger a “cleanse” in the body. All people should consult essential oil cautions lists. Young children, pregnant or nursing women, and people with a history of potent prescription use should consult their medical provider before using essential oils and pay special attention to caution lists.
